NICE CXone UCaaS Integrations are pre-built adapters connecting the contact center to leading UC tools, facilitating expert access through synchronized presence and instant engagement, bringing together the two platforms in a unified agent interface, connecting your agent workforce in minutes with Microsoft, RingCentral, Zoom, LogMeIn, Atos and more. Drive cross-functional productivity, agent satisfaction and improved KPIs such as First Call Resolution and Average Hold Time through instant engagement using both tools in a single agent interface. Intelligent contact routing ensures agents collaborating internally through UC show unavailable for contact handling, resulting in reduced average hold time and improved CSAT.

UCAAS & CCAAS INTEGRATION DONE RIGHT

A single, integrated agent view for handling calls and communicating within the entire organization.

- Prebuilt adapters that seamlessly integrate leading UC tools from RingCentral, Zoom, Microsoft Teams, Atos, Fuze and LogMeIn with the CXone MAX interface.
- Access the contact center agent desktop, video, softphone, collaboration, chat, employee information and file management from a single agent view
- Presence Sync reflects an agent's status on the UC tool to the agent interface and vice versa
- Address Book and Directory Sync with presence awareness automatically updates new and expired user information across the entire organization

THE ENTIRE ORGANIZATION, REACHABLE WITH 1 CLICK

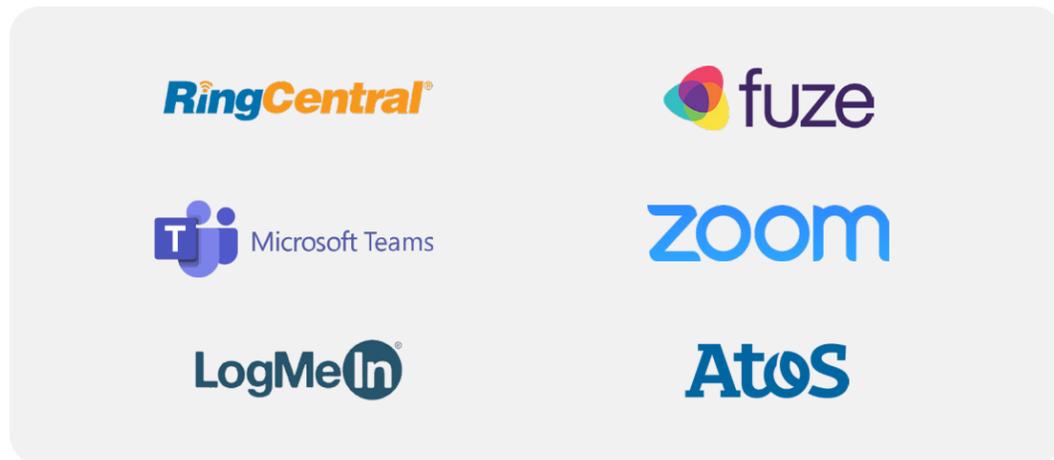

Resolve increasingly complex customer interactions by using single-click call, chat and email to reach anyone in the organization

- Easy click-to-dial functions support warm hand-offs to SMEs
- Access to a one-click, intelligent directory of your organization within a single agent interface
- Reduce administration associated with utilizing external SMEs as contact center resources
- Higher First Contact Resolution rates that minimizes failed transfers and consult attempts with unavailable resources outside the contact center

BENEFITS

- Get up-to-date presence information on anyone across the organization from within the contact center agent interface
- Concurrent agent state on UC and contact center platforms prevents conflicting calls and ensures routing to available agents
- Quickly connect with knowledge workers for assistance outside of the normal resolution flow
- One login for all tools and interfaces, creating seamless agent experience
- Simplify the UCaaS/CCaaS puzzle through simple licensing, scalability, and low capital expenditure

Prebuilt adapters available for leading UCaaS providers

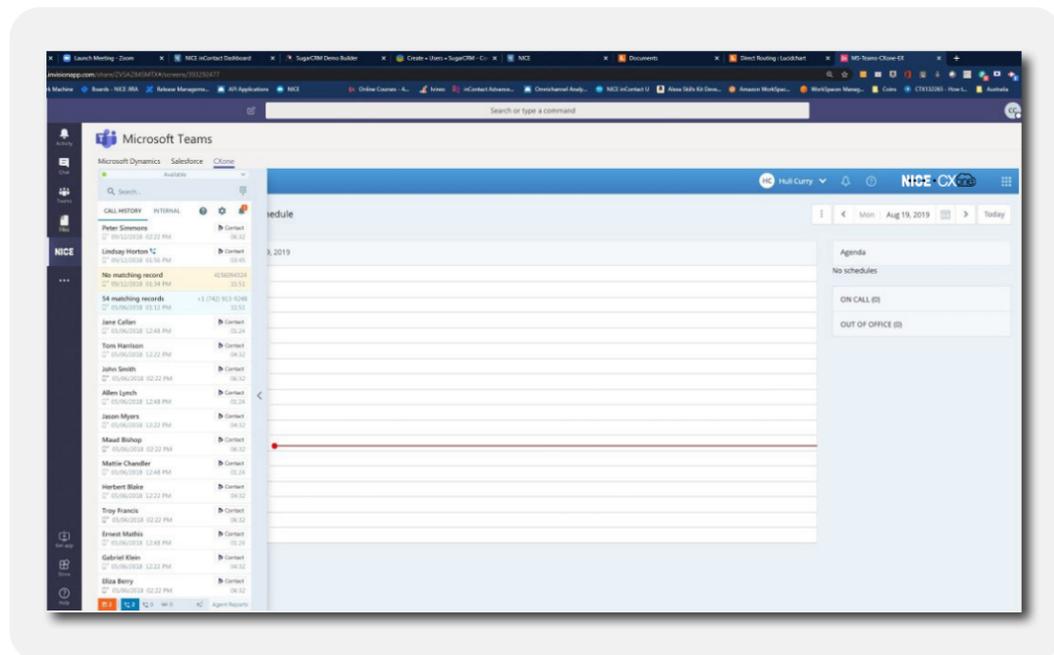

WE PRE-BUILD, SO YOU DON'T HAVE TO

Use a pre-built solution, reducing costs involved in building a custom integration, as well as speeding up time to deployment

- Reduce IT costs with a pre-built, well tested solution that is ready to deploy today
- Maintain a familiar cloud environment using the same tools, only integrated seamlessly together
- Leverage investments made in UC technology from leading providers
- Flexibility and scalability needed to meet your changing contact center requirements

Unified Agent View with Microsoft Teams

About NICE

With NICE (Nasdaq: NICE), it's never been easier for organizations of all sizes around the globe to create extraordinary customer experiences while meeting key business metrics.
